Press release

Introducing the official co-partners of the Tour de Suisse

With its official co-partners Camion Transport, Europcar, Hirslanden Private Hospital Group, ŠKODA and ASSOS, the Tour de Suisse 2015 can again count on reliable support. These companies will be joining the already announced presenting partner Vaudoise and official partners search.ch and Jumbo Baumarkt AG.

This will be the tenth time that **Camion Transport**, based in Wil, has embraced the role of official transport and logistics partner of the Tour de Suisse. The entire infrastructure of the Tour de Suisse will be transported from place to place each day by a fleet of 10 trucks, which form the basis upon which the Tour's extremely complex and challenging logistics demands will be met. The haulage company will also be giving itself a treat to celebrate its 90th anniversary: on Thursday 18 June 2015 Camion Transport AG is hosting the start of the 6th stage at its company headquarters in Wil (St. Gallen).

Europcar Switzerland has been the official vehicle partner of the Tour de Suisse for over 10 years and in cooperation with ŠKODA provides 100 support vehicles for the occasion. What's more, Europcar International is represented in a sporting capacity at the Tour de Suisse by its own cycling team. As the largest car rental company in Switzerland and Europe, it also has its own stand in the TdS Village.

By signing up the **Hirslanden Private Hospital Group**, the Tour has gained a key partner for its medical support needs. The cyclists will profit from excellent emergency medical care during the races and by supporting the Tour de Suisse Challenge, the Hirslanden Private Hospital Group underlines its commitment to recreational sport.

ŠKODA continues to be the official car partner of the Tour de Suisse, especially as the auto manufacturer has been an active supporter of cycling throughout Europe for years. Next June ŠKODA will once again provide a substantial fleet of vehicles for the race, which, along with ŠKODA's latest models, will be exhibited on a spacious display area in the Village for visitors to see and experience.

The newly acquired partner for the official jerseys is the long-established company **ASSOS**, based in Ticino. This international sportswear manufacturer is creating the leader's jersey and the three other special awards jerseys.
